

THE SIMPLE SHEET FOR REPLACING COMMERCIAL ELECTRIC WATER HEATERS

This worksheet is designed to facilitate accurate replacement unit selection. Complete as much information as possible about the existing unit before submitting this worksheet to your supplier. Providing complete information helps ensure accurate and seamless replacement unit selection.

Gallon Capacity: _____

Manufacturer: _____

Model: _____

Serial: _____

Voltage: _____

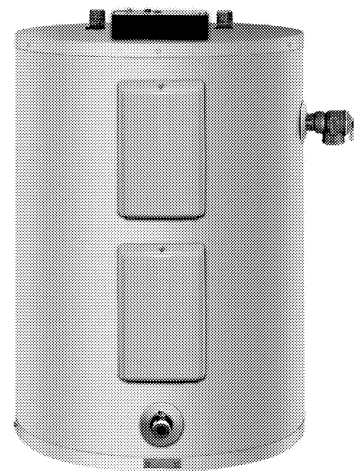

Wattage: _____
(please specify total wattage, or each element)

Phase: _____

Operation: _____
(simultaneous or non-simultaneous)

Diameter: _____

Height: _____

Before leaving the job site, take these photos listed below. In most cases, these photos provide enough information to identify the correct replacement unit, even if some fields on this worksheet are incomplete.

1. Rating plate.
2. Terminal block.
3. Wiring diagram.
4. Behind the access panel.
